The public has shown their confidence and trust on the working of police complaint cells. This has reduced the unnecessary burden of thousands of cases on judiciary. Besides, the general public remain as beneficiary of these complaint cells as relief has been

extended to them being speedy and without additional monetary burden which is their fundamental right enshrined in the Constitution of Pakistan.

The Hon'ble Chief Justice of Pakistan, while giving the future plan of working of PRC, emphasized upon need of role of National Police Bureau to devise a uniform strategy across the country regarding correct narration of FIR, un-necessary arrest, and false evidence so that misuse and abuse of process of registration of criminal cases and department of police could be discouraged. It was unanimously decided that the Committee will consider these important issues as a next step for successfully achieving the goal of Police Reforms in the Country, in the meantime National Police Bureau with consultation of all the inspector generals of Police will prepare a proposal on aforementioned issues and will share with the committee.
